International Baccalaureate Diploma Program

As the longest running Diploma Program in the state of Colorado, GWIB prides itself on cultivating a community of students who become critical thinkers, inquiring learners, and engaged citizens of the world.

Created in 1968, the Diploma Program (DP) was established in order to provide an international education where young people would be better equipped to handle and manage the complexities of the world, and providing them with the knowledge and skills to improve it. Informed by continual research and over 40 years of experience in international education, the IB is a dynamic organization who has always promoted critical engagement with challenging ideas, one that both values the past and is open to innovation.

A rigorous college prep program, students are immersed in the full Diploma Program beginning in the 11th grade. Students enroll in challenging coursework in six different subjects: English, Math, World Languages, Individuals and Societies, Experimental Sciences, and the Arts. In addition to their content areas, students engage with what IB calls The Core: Creativity, Activity, & Service (CAS), Theory of Knowledge (TOK), and the Extended Essay (EE). The belief is that students leave the DP as well rounded, holistic critical thinkers who will change the world.

It is recommended that 9th and 10th grade students interested in the Diploma Program take a full suite of core honors classes in addition to the electives they are passionate about. Students do not decide about entering the Diploma Program until their sophomore year.

Nearly 200 GW students participate in the Diploma Program, not only as engaged learners, but also as engaged community members. You can find IB students on stage in a musical, on the court in a basketball game, in the classroom tutoring, showcasing their debate skills, and much more.

IB Mission Statement

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end, the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

About the Coursework

Students in the Diploma Program take six courses taken from the six subject groups. Three of these courses are studied at the Higher Level (HL) and at least three are studied at the Standard Level (SL). SL courses are usually a yearlong and include 150 hours of instruction, while HL courses are two years long and include 240 hours of instruction. All students take HL English Literature, and are able to choose the rest of their course offerings.
